

MINING, ENERGY & NATURAL RESOURCES

Research, planning, sustainability, stakeholder, technical-writing, and business-development support for energy and natural-resource programs.

COMPANY OVERVIEW

The Power Point, LLC supports energy and natural-resource initiatives through renewable-energy planning, sustainability strategy, tax-incentive research, business planning, stakeholder coordination, technical writing, and market development. The principal has advised on a renewable-energy facility and sustainable business campus, supported solar-PV manufacturing concepts, pioneered carbon-neutral event systems, and led environmental partnerships and programs involving government, industry, nonprofits, and international stakeholders.

CORE CAPABILITIES

- Renewable-energy and sustainability planning, market research, and policy/incentive research
- Business plans, pro formas, technical narratives, executive summaries, and project documentation
- Stakeholder engagement, partnership development, vendor coordination, and cross-sector outreach
- Sustainability metrics, carbon-impact concepts, waste-diversion, procurement, and environmental-program support
- Digital communications, websites, content, data organization, and public/stakeholder information support

DIFFERENTIATORS

- Direct consulting on renewable-energy facility planning and modular solar-PV manufacturing concepts
- Pioneering experience in carbon-neutral events, waste-diversion engineering, and international sustainability programs
- Longstanding network-building and partnership experience across government, nonprofit, professional, and commercial sustainability sectors
- Inventory of specialized dot fund top-level domains at <https://thepowerpoint.us/Domain-Services.html>

REPRESENTATIVE EXPERIENCE / PAST PERFORMANCE

- R.A. Thomas Electric - Renewable Energy Planning / Technical Advisor; researched tax incentives, updated pro forma and business-plan materials, and supported sustainable campus and solar-PV concepts.
- Seven-Star - Led green-event, waste-diversion, sustainability, procurement, and partnership programs; supported international projects for Live Earth.
- GreenCities / Green Festivals / UN World Environment Day-related work - Advanced sustainability markets, stakeholder partnerships, and environmental communications.
